SKYBRIDGE
287 Lonsdale St, Melbourne VIC 3000
5th March 2022

THE GROUND-DETACHED CROSSING

The chosen system is skybridge - an prevalent architectural element in Central Business District (CBD) of Melbourne.

This system segregates the same flow from A to A' into different vertical level, speed, and space. Each crossing offers unique experience, one might rush the flow while another can introduces pauses. The starting point and the destination of this system are intrinsically identical.
