S25: AWOL

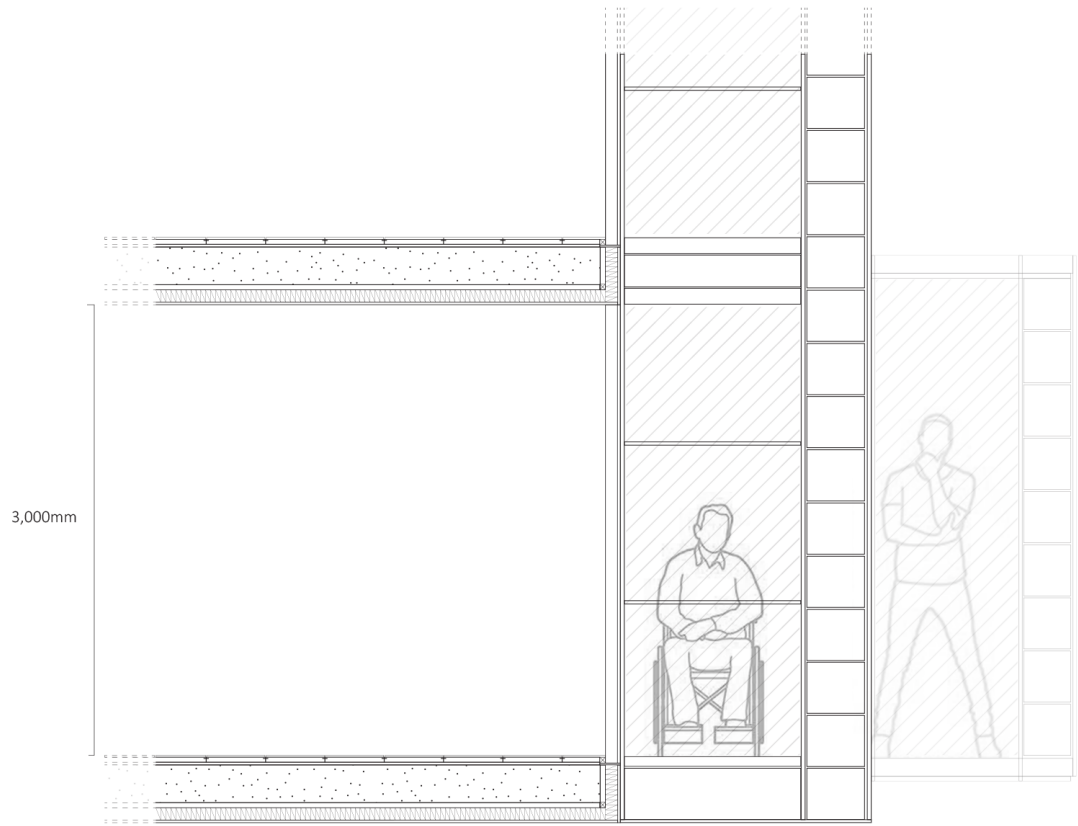

Two Extensions

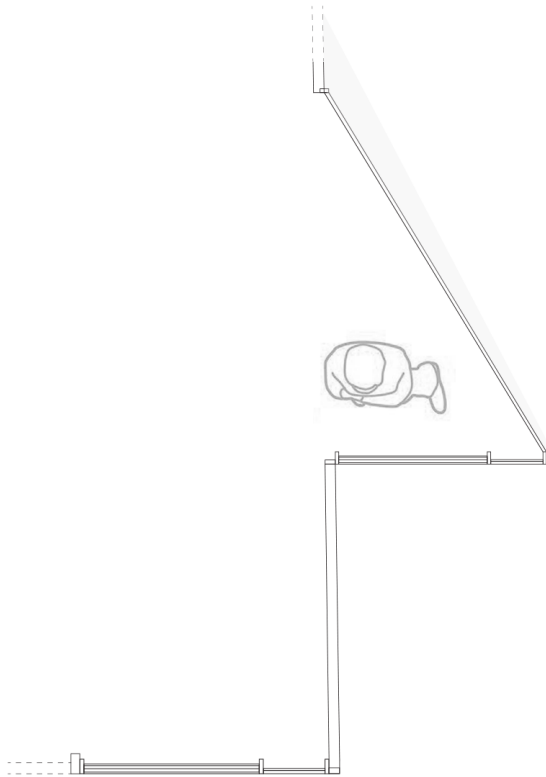

The system is about two extended parts.

The diagram explains how the two parts extend, the first one extends outward at a small angle  $x$ . The second one is the larger angle  $y$  attached on the first extension.

'E/P' represents 'existing private space'.  
'C' represents 'City'.

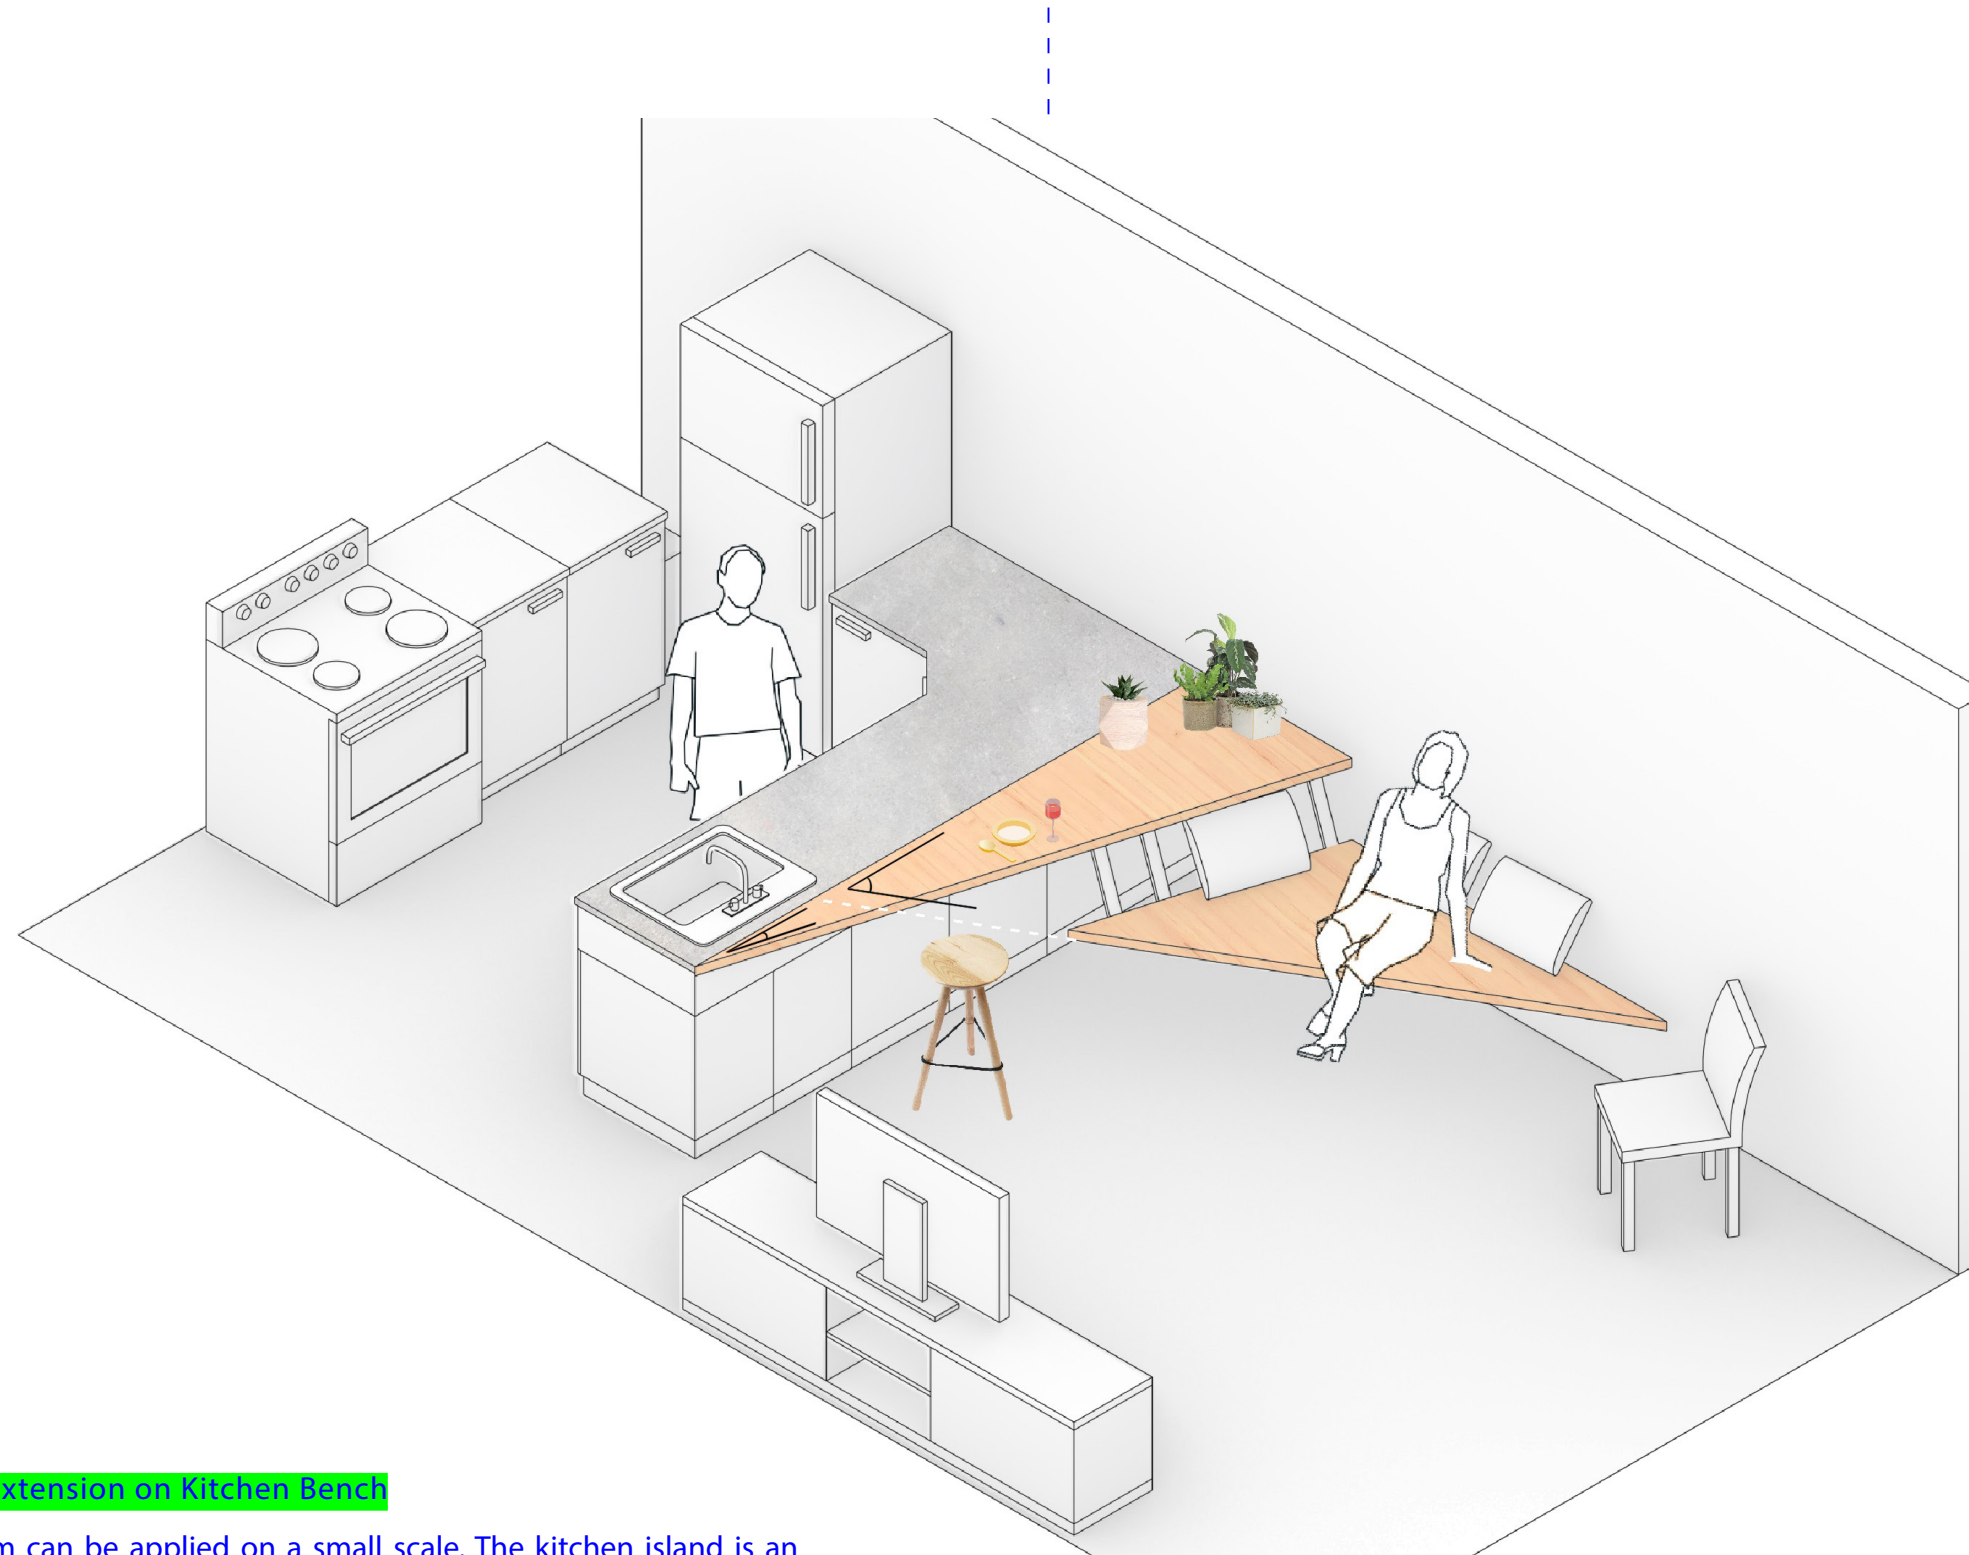

Section AA'

Plan Partial  
(Extension Only)

### Double Extension on Kitchen Bench

The system can be applied on a small scale. The kitchen island is an existing structure and the wooden table board could be the extension.

The first extension in a small angle  $x$  is the same level of the kitchen island, it can be the dining table. The second extension is in a larger angle  $y$  and it is much lower, can be the sofa or even a bed.

E/K is the existing kitchen island.  
 $x$  is the angle of the first extension.  
 $y$  is the second larger angle of the second extension.
