

BUILDING ELEMENT
DOOR
200 Queen St, Melbourne VIC 3000
21/03/2021

Multiple Combination

The sliding and folding doors .
As the doors can combine together and slide to the other side.
Different combinations will occurred.
By making different combinations , the size of the entrance changes depends on the combination of the doors,maybe it will be larger but with less entrance or smaller but with multiple entrances.

RE-IMAGINATION DESCRIPTION

This is a physical game called: Floating island. We create a special rule for this game: the rule are if you want to pass through to the other side, you have to cross through 4 different floating island , at the same time you will decide how you cross through how you make your combination of passing though it.
