PROMINENT DIVISION
168 SWANSTON ST, MELBOURNE
08/03/2022

Prominent Division

In this element, there are two different spaces with two different functions, one above the other. These two spaces are separated with a very prominent platform that acts as a divider to both indicate the function of the commercial space below and create a strong visible divider from the above residential space. This clarifies the diversity of the two vertically aligned spaces to all the people circulating the area. Moreover, the divider embodies the same style and colour scheme of the lower space presenting the commercial function contrasting with the upper residential space of the completely distinct style. This all adds to the visually apparent division of spaces with a focus on their function.
